EDUCATION

Chandigarh Group of College

Bachelor of Technology in Computer Science Engineering

July 2022–July 2026

Punjab, India

Aggarsain International Public School, Samana

Higher Secondary Education

April 2021 – March 2022

Punjab, India

Aggarsain International Public School, Samana

Secondary Education (10th Class)

April 2019 – March 2020

Punjab, India

PROJECTS

Disaster Management Website | React, Redux, Node.js, Express, jwt | [GITHUB](#)

- Built an end-to-end disaster management platform enabling real-time incident reporting, resource requests, and situation awareness using **React**, **TailwindCSS**, and interactive UI components for affected communities.
- Developed secure backend services with **Node.js**, **Express**, and **MongoDB**, implementing user **authentication**, structured data flow, and optimized APIs to ensure reliable and rapid information delivery during emergencies.
- Improved platform responsiveness and usability by streamlining data retrieval, reducing **API latency**, and implementing efficient **state management** using **Redux**, resulting in faster updates and a seamless experience for users in crisis situations.

Bag Shop | Node.js, Express, EJS, MongoDB | [GITHUB](#)

- Built a full-stack **e-commerce platform** for a bag shop using **Node.js**, **Express**, **EJS**, and **MongoDB**, delivering a clean product browsing experience with dynamic server-side rendering.
- Implemented robust **user and admin authentication**, secure session handling, and role-based access control to ensure safe and streamlined management of products and orders.
- Developed core features including **product listings**, **shopping cart**, and a **secure checkout workflow**, optimizing backend APIs and database queries for smooth and reliable user transactions.

Social Media (X Clone) | React.js, Zustand, MongoDB, Cloudinary | [GITHUB](#)

- Built a feature-rich **social media platform** using **React** and **Node.js**, enabling real-time content sharing, interactive feeds, and a responsive user interface for seamless engagement.
- Implemented secure **user authentication**, profile management, and optimized REST APIs with **Express** and **MongoDB** to ensure fast data retrieval and a reliable backend architecture.
- Developed core social features including **post** creation, **likes**, **comments**, and **follow** system, enhancing user interaction through efficient state management and scalable server-side logic.

SKILLS

Languages: C++ | JavaScript | Python | Java

Frontend: React.js | Zustand | Redux | Tailwind

Backend: Node.js | Express.js

Databases: MySQL | MongoDB

Tools: Git | Postman

ACHIEVEMENTS

- Secured **3rd** position in **National Science Day** competition.
- Solved 200+ on **DSA** and **Problem Solving** problems (150+ **LeetCode**, 50+ **Coding Ninjas**).

CERTIFICATIONS

- MERN Stack development** – Udemy | September 2024
- Amazon Web Services** – AWS ACADEMY | March 2025
- Ethical Hacking** - The Hacker Central

EXTRA CURRICULAR

- Coordinated the Parivartan Fest of College in 2022.
- Participated in College Level coding competitions.
